

The kitchen you've always wanted

Welcome to a new world of kitchen design. No longer just a place to cook and eat, today's kitchens are truly the heart of the home. The contemporary kitchen is a gathering place, entertainment centre, study hall and conversation headquarters.

With today's busy lifestyles, dining rooms are often saved for formal occasions. Most of the time, people like to join friends and family around the kitchen island or eating bar while they prepare a meal. The chef can chat with guests or help the kids with their homework.

When you place new functional demands on an older kitchen, most come up short. For a kitchen that matches and enhances your lifestyle, look to Jayman.

Our NORDLUND Gourmet Kitchen Collection combines the right look, the right functionality and the very best in GE Monogram appliances. Best of all, it is designed with your lifestyle in mind. As you plan for your new Jayman home, consider how NORDLUND can allow you to make the most of life in the kitchen.

Here's to many happy years spent with family and friends in the kitchen of your dreams.
